

## CURRICULUM VITAE

### **PERSONAL INFORMATION**

Surname, Name: Bilen, Melhem

Birthdate: January 16, 1993

Nationality: Lebanese

E-mail Address: melhembilen2@gmail.com

Telephone Number: +1 (650) 269-4647

### **HIGHLIGHTED ACHIEVEMENTS**

- Science communication, having published and written more than 44 scientific papers and participated in 5 big conferences in Europe, USA and Middle East.
- Strong relationship builder and teamwork skills developing a collaboration between Lebanon and France throughout 2 universities.
- Excellent time and project management skills, having obtained a Ph.D. at the age of 25 while publishing 35 manuscripts within a 3-year period.
- Strong determination and experience in problem solving and operation development, through the establishment of a new platform at Stanford university, requiring expert's recruitment, workflow development and management.
- Extremely analytical and adaptable researcher with over 10 years of experience in a diverse set of research areas including microbiology, microbiome, oncology, molecular biology and Biomedical Engineering.

### **Professional experience and education**

2023 – Current **Assistant Professor** at the American University of Beirut, EPIM department, Beirut, Lebanon

2019- 2023 **Postdoc research fellow** at Stanford university, bioengineering department, California USA.

- *Main objective is to establish a culturomics platform to study the healthy human microbiome along with the development of new bacterio-therapeutic approaches to treat infectious diseases (CIDIF, IBD) and enhance immunosuppressor treatment.*

Melhem Emile Bilen – Curriculum Vitae – 2010.2020

- Developed and maintained scientific relationships with key opinion leaders ( KOLs) across 3 platforms on multiple microbiome and microbiology based research projects. • Collaborated with other scientists and Labs at Stanford university, MD Anderson and NIH.
- Engaged opinion leaders (OLs) in microbiome and bacterio-therapy discussions at weekly grand rounds.
- Presented to KOLs at weekly meeting about advances in bacterio-therapy development.

**2015-2018 Ph.D in human pathology and infectious diseases AIX Marseille university-MEPI UNIT/Faculty medicine and Balamand university Faculty of medicine.**

- Collaborated with KOLs and science engineers to develop previously established and new approaches to study the human microbiome and its role in health and diseases.
- Received and educated KOLs on the use of culturomics in the human microbiome description.
  - .Performed a concrete work that revolutionized our understandings of the human microbiome and results were translated in 36 publications, of which 2 were in Nature and one in Microbiome journal.
- Presented my work at 4 domestic and international conferences with KOLs.
  - Discussed and presented microbiome research with KOLs at the Lebanese association of clinical microbiology and infectious diseases.
  - Presented at Journal Club to KOLs about recent microbiome and infectious diseases related research.
- Engaged OLs in scientific discussions about microbiome, infectious diseases at clinical grand rounds.
- Obtained an award for the best publish literature review in the south of France.

**2014- 2015 MS. Molecular Biology**, Lebanese American University, Lebanon.

**2010-2013 BS. Biology**, Lebanese American University, Lebanon

**2009 French and Lebanese Baccalaureate in Life Sciences**, College de Notre Dame de Lourdes  
**Scientific experience and specialty**

- Establishment of platforms that serves to screen and analyze the prokaryotic content in human samples.
- Development of new culture-based approaches to isolate “uncultivable” organisms, Operation taxonomic units and wanted taxa.
- Bacterial co-culture and preservation.
- Bacterial complex engineering
- Microbiome analysis

Melhem Emile Bilen – Curriculum Vitae – 2010.2020

- Bacterial phylogenetic analyses with proteomic/genomic based approaches. -
- Anaerobic bacterial culture and maintenance.
- Project management and experimental designs/optimization.

### **TEACHING EXPERIENCE**

**2015** Microbiology Lab Instructor, School of Arts and Sciences, Lebanese American University, Lebanon: This course explores the ubiquitous nature of microbes. The overall objective is to implement exercises which allow students to obtain a hands on experience in many of the microbiological techniques routinely employed, with emphasis on the methodological, and clinical, relevance of the procedures. Students connect theoretical lectures to the practical applications in medicine, environment, and other related fields.

**2014** Research Supervisor for assigned BS. Biology senior year students in microbiology, School of Arts and Sciences, Lebanese American University, Lebanon.

**2013-2014** General Biology Lab course instructor, School of Arts and Sciences, Lebanese American University, Lebanon. This is a lab practical course that complements general biology 201 theoretical course (an introductory, yet comprehensive, study of the chemical, cellular, and the tissue organization of life, the transfer of energy through living systems, the expression of genetic information, essential microbiology principles, as well as a discussion of the major characteristics of viruses, bacteria, fungi, protists, and plants.).

**2009-2014:** Freelance After-hours Tutor, Subjects: Genetics, Chemistry, General Biology, Math, Biostatistics, Physics, Class range: high-school students and college students.

### **WORK EXPERIENCE**

2019 **Consultant**, microbiome, and microbiology consultant in FederationBio, San Francisco.

Fall 2014 **General Biology** Lab coordinator and microbiology lab Instructor  
School of Arts  
and Sciences, Lebanese American University,  
Lebanon

Spring 2014 **Cell Culture Facility Lab** supervisor, School of Arts and Sciences,  
Lebanese American  
University, Lebanon

**Oral presentations and Conferences:**

Melhem Emile Bilen – Curriculum Vitae – 2010.2020

**2018 Culturomics in the clinical settings** Invited speaker at the 3<sup>rd</sup> summer regional course  
hot topics in infectious diseases

**2017 Unveiling the human microbial dark matter by culturomics**  
Poster presented at the faculty of medicine annual conference, Aix Marseille university.

**2015 Comparative genomic analysis of *Staphylococcus aureus* CC80 strains.**  
Poster presenter at the LAU- MSA 3<sup>rd</sup> Annual Medical Research Symposium.

**2014 Rho A Versus Rho C: Localization, Role in Invadopodia Formation and Invasion of Astrocytoma Cells**  
Poster presentation the 20th Annual LAAS Conference jointly organized by the Lebanese Association for the Advancement of Science, EDST-LU and National Council for Scientific Research

**LANGUAGE PROFICIENCY**

	Writing	Reading	Speaking
Arabic	Excellent	Excellent	Excellent
English	Excellent	Excellent	Excellent
French	Good	Excellent	Excellent

**AWARDS**

2019 Best published literature review according to Infectiopôle Sud - IHU Méditerranée Infection

2019 Certificate of attendance, Microbe 2019, San Francisco.

2018 Certificate of Attendance, ESCAR International Congress on Rickettsia and other  
Intracellular Bacteria, Marseille (France).  
Melhem Emile Bilen – Curriculum Vitae – 2010.2020

2018 American society for microbiology young ambassador to Lebanon

2017 American society for microbiology young ambassador to Lebanon  
Council for Scientific Research

2015 Certificate of Attendance, poster presenter at LAU- MSA 3<sup>rd</sup> Annual  
Medical Research  
Symposium

2014 Certificate of Attendance, poster presenter at the 20<sup>th</sup> Annual LAAS  
Conference jointly organized  
by the Lebanese Association for the  
Advancement of Science, EDST-LU and National

### **LAB TECHNIQUES**

- Culturomics
- Anaerobic cultures
- Metagenomics
- Taxono-genomics
- Whole Genome Sequencing
- PCR
- Real-Time PCR
- Gel electrophoresis
- MALDI-TOF MS
- Cell culture
- Western Blot
- Microbial community preparation
- Probiotics designs
- Bacteriotherapy

### **Manuscripts in Preparation:**

- Establishment of a new protocol to create synthetic bacterial communities for mice colonization

Alice Cheng, **Melhem Bilen**, Pallavi Murugkar and Michael Fischbach.

- Novel approach to create stable humanized mice models via culturomics **Melhem**

Michael Fischbach.

**- The use of defined microbial communities in clinics to treat diseases**

[...], **Melhem Bilen**, [...] Michael Fischbach.

**Published Manuscripts (CITED BY 1607 as of Jan 13, 2023)**

**1. Culturomics, a potential approach paving the way towards bacterio-therapies.**

Matar Ghassan and **Melhem Bilen** Culturomics, a potential approach paving the way towards bacterio-therapies. Current opinion in microbiology. 2022 Aug 20; 69:102194. doi: 10.1016/j.mib.2022.102194. PMID: 35994842.

new bacterium isolated from the human gut of a pygmy female. 12/2016; 16(C)., New Microbes New Infect DOI:10.1016/j\_nmni.2016.12.015

**35. Culture of previously uncultured members of the human gut microbiota by culturomics.**

Lagier JC, Kheliaffa S, Tidjani Alou M, Sokhna Ndongo, Niokhor Dione, Perrine Hugon, Aurelia Caputo, Frédéric Cadoret, Sory Ibrahima Traore, El Hadji Seck, Gregory Dubourg, Guillaume Durand, Gaël Mourembou, Elodie Guilhot, Amadou Togo, Sara Bellali, Dipankar Bachar, Nadim Cassir, Fadi Bittar, Jérémie Delerce, Morgane Mailhe, Davide Ricaboni, **Melhem Bilen**, Dangui NPM, Ndeye Mery Dia Badiane, Camille Valles, Donia Mouelhi, Khoudia Diop, Matthieu Million, Didier Musso, Jônatas Abrahão, Esam Ibraheem Azhar, Fehmida Bibi, Muhammad Yasir, Aldiouma Diallo, Cheikh Sokhna, Felix Djossou, Véronique Vitton, Robert CT, Jean Marc Rolain, La Scola B, Fournier PE, Anthony Levasseur, Didier Raoult: Culture of previously uncultured members of the human gut microbiota by culturomics. Nature Microbiology 11/2016; 1., DOI:10.1038/nmicrobiol.2016.203

**36. "Eggerthella timonensis" gen. nov. isolated from a human stool sample.**

**Bilen M**, Cadoret F, Daoud Z, Fournier PE, Raoult D. "Eggerthella timonensis" gen. nov. isolated from a human stool sample. *New Microbes New Infect*. 2016;17:41-42. Published 2016 Nov 15. doi:10.1016/j\_nmni.2016.11.001

**37. «Collinsella bouchesdurhonensis» sp.nov., identified in human stool sample.**

**Melhem Bilen**, Frédéric Cadoret, Ziad Daoud, Pierre Edouard Fournier, Didier Raoult: «Collinsella bouchesdurhonensis» sp.nov., identified in human stool sample. 11/2016; 17(C), *New Microbes New Infect* DOI:10.1016/j\_nmni.2016.11.004

**38. "Mobilobacterium massiliense" gen.nov. and "Mobilobacterium timonense" sp.nov., identified in human stool specimen.**

**Melhem Bilen**, Ndongo Sokhna, Cadoret Frederic, Dubourg Gregory, Ziad Daoud, Pierre-Edouard Fournier, Didier Raoult: "Mobilobacterium massiliense" gen.nov. and "Mobilobacterium timonense" sp.nov., identified in human stool specimen. *New Microbes New Infect* 11/2016; 15(C), DOI:10.1016/j\_nmni.2016.11.008

**39. "Congobacterium massiliense" gen. nov. sp. nov. , a new bacterium isolated from the human gut of a pygmy female.**

**Melhem Bilen**, Frédéric Cadoret, Ziad Daoud, Pierre Edouard Fournier, Didier Raoult: "Congobacterium massiliense" gen. nov. sp. nov. , a new bacterium isolated from the human gut of a pygmy female. 11/2016; 15(C), *New Microbes New Infect* DOI:10.1016/j\_nmni.2016.11.005

**40. «Eggerthella timonensis» gen.nov., isolated from a human stool sample.**

Melhem Emile Bilen – Curriculum Vitae – 2010.2020

**Melhem Bilen**, Frédéric Cadoret, Ziad Daoud, Pierre-Edouard Fournier, Didier Raoult: « Eggerthella timonensis» gen.nov., isolated from a human stool sample. 11/2016; 17(C), *New Microbes New Infect* DOI:10.1016/j\_nmni.2016.11.001

**41. *Bacteroides congonensis* sp. nov., a new bacterial species from the human gut microbiota.**

**Melhem Bilen**, Frederic Cadoret, Ziad Daoud, Pierre-Edouard Fournier: *Bacteroides congonensis* sp. nov., a new bacterial species from the human gut microbiota. 11/2016; 2, HUMIC journalDOI:10.1016/j.humic.2016.11.004

**42. *Parabacteroides timonensis* sp. nov., identified in human stool.**

**Melhem Bilen**, Frederic Cadoret, Ziad Daoud, Pierre-Edouard Fournier, Didier Raoult: *Parabacteroides timonensis* sp. nov., identified in human stool. 10/2016; 2, HUMIC journal DOI:10.1016/j.humic.2016.10.002

**43. "Libanicoccus massiliensis" gen. nov., sp. nov., a new bacterium isolated from a stool sample from a pygmy woman.**

**Bilen M**, Cadoret F, Fournier PE, Daoud Z, Raoult D. "Libanicoccus massiliensis" gen.

nov., sp. nov., a new bacterium isolated from a stool sample from a pygmy woman.
